## Ban on Single Use Plastic in LSR Campus

Regarding the ban on single use of Plastic Bags in the LSR Campus

**Principal LSR** <principal@lsrcollege.org>  
to Savita, kusumgupta\_lsr, Maninder, Sardana, Jyotsna, Arvind, Smriti, Kalyani, Tripti, Jonaki, deepika, Sujatha, Shruti, Pooja, Sushila, sushila, Neelam, Divya, Shashi, Jayashree, Kakali, Rest

Thu, Sep 19, 2019, 6:10 PM

Dear Colleagues,

As per the directive we have received from the Ministry of Human Resource Development (MHRD), we are implementing a ban on single use plastic bags (poly-bags in the Campus).

The Canteen has been told not to supply any food item in plastic bags with immediate effect. Faculty members who would like to carry home food items from the canteen, are hereby requested to bring their own containers for this purpose.

Sincerely,

Dr Suman Sharma  
Principal  
Lady Shri Ram College for Women  
Lajpat Nagar, New Delhi-110024  
Tel:011-26434459, 011-45494949

## Use of Steel crockery in Hostel and Canteen (No use of plastic)

Awareness on minimizing energy use (energy efficiency)

**LSR students installed solar lamps in the workplace of artisans (Enactus Project Kalakaashi)**

### Use of energy efficient LED light wherever required

### Use of Solar energy (Renewable energy) in Campus

## Waste Management in College

- Solid waste is segregated by placing dustbins.
- College in association with Dakshin Delhi Swachh Initiative dispose solid and green waste in responsible manner

- Liquid waste is processed by Sewage Treatment Plant

## Sanitation drive during Covid Pandemic

## Environment awareness initiatives

### Lectures and Discussion on Environment theme

### Cleanliness Drive by NSS-LSR at Zamrudpur

### Project Tree Tag

Project Utthaan, an undertaking of Enactus Lady Shri Ram College for Women, conducted an environmental campaign named **'Tree Tag'** around the college campus to raise awareness about the important role of trees in our planet's well-being. Under this campaign, students had tagged trees in College campus with their prices, thereby capturing the monetary value of trees based on the services rendered by them during their average life span of 50 years. Team Utthaan aims to educate violators through its campaign on how cutting even a single tree can be a costly affair. The amount of damage we inflict upon trees by practicing deforestation not only affects our environment but in many ways our health too. The continuous procurement of land by unhealthy practices results in wildlife and humanity paying a great price.

## LSR celebrates Environment Week

Lady Shri Ram College for Women celebrated 'Environment Week' from February 21<sup>st</sup> to 28<sup>th</sup>, 2020. All departments of the College actively participated to raise awareness about important environment issues during this week. Students of different disciplines correlated environment with their own subject during Environment Week. Students created demonstrations on themes like Gandhian Philosophy & Environment, Folk art & Environment, Historical text & Environment, Sustainable Development, Save Forest etc. Waste material or recycled substances were used in making these demonstration in order to inculcate spirit of reduce, reuse & recycle among students.

### Lady Shri Ram College highlights environmental issues at flower show

TNN | Mar 7, 2018, 01:00 AM IST

Lady Shri Ram College for Women celebrated Environmental Week recently. The objective of this event was to spread awareness regarding environmental issues like climate change, urban flood, forest drought and dead conditions of Indian rivers. The college celebrated Delhi University's flower show by moving one step ahead and conducting different inter-departmental discussions, documentary screening, slogan writing and showcasing different environmental journals. Students from different courses came up with unique ideas to sensitise people about issues and challenges associated with environmental conservation. Creative installations made of recycled material were placed all around the institution to give the message of recycling in an innovative manner. A nature walk was also conducted around the college.

### Lady Shri Ram College's 'Green car campaign' to combat foul air

HT Correspondent

• HTreporters@hindustantimes.com

**NEW DELHI:** In an attempt to curb air pollution in Delhi, the social entrepreneurship society of Lady Shri Ram college, Enactus, in collaboration with the East Delhi Municipal Corporation (EDMC), have taken the initiative to install plants on the roof of cars.

Enactus is a global non profit organization that conducts community outreach programs to help people transform their lives through entrepreneurial skills.

The 'Green car' campaign, which took off in November last year, has currently been experimented upon a car belonging to an EDMC official.

"The idea is inspired from the Green taxi campaign in Kolkata,

• The project is being experimented on a car belonging to an EDMC official.

which was quite impactful in showing the world that it does not take a lot of space in order to make a change," said Nayamat Sood (19), project director at Enactus. "While we are yet to conduct a scientific study of the impact the initiative would have

on air pollution, our efforts are focused on installing air purifying plants such as the Nilgiri grass, snake plant, money plant," she added.

Speaking about the benefits of the 'Green car' initiative, Pradeep Khandelwal, chief engineer of EDMC said that "as a concept it is very good, even though we are yet to study its impact. It is based on the formula that a significant amount of pollution created by cars can be cleared through green spaces. Further, it will also work as a thermostat."

Khandelwal said that once the impact analysis of the project is completed, and if the results are positive, they will first introduce it on vehicles owned by government officials and concentrate efforts in creating public awareness.
