FEEDBACK FORMS

B. A. (Hons.) Journalism

Lady Shri Ram College for Women

Academic Year 2020-21

The Department of Journalism, LSR had requested its students to provide feedback for the Academic Year: 2020-2021. The feedback was collected using the Google Forms application. The students of the Batch of 2022 and the Batch of 2023 were asked to fill the feedback forms, who are currently studying in the 5th and 3rd semester respectively. The students gave a positive response, and also offered their suggestions on how to make online learning more engaging.

The majority of the students agreed that the faculty members are regular and punctual in taking online classes, readings/e-resources are disseminated effectively, and the course is covered on time. The students also agreed that online classes are discussion-based, interactive, and engaging as teachers actively use teaching aids such as PPTs, videos, podcasts, and Ted talks during online classes.

More than 80% of the students acknowledged that teachers always helped them when they were facing difficulties or doubts in academics, and are always available for support and guidance. Students also believe that teachers provide them with feedback on their work, and also offer guidance on higher courses of study and future career prospectus.

Students agreed that they were collectively benefitting from association activities, society activities, and were offered opportunities and the right platform for engagement with social issues.
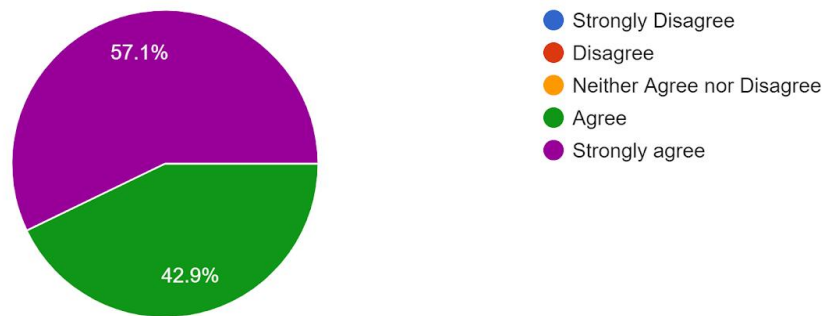

The suggestions given by the students are as follows -

- It would be great if we could have a wifi zone in college for research work and other important activities related to academics. Also if we could provide more laptops in college.
- The online classes in the present model have been one of the most interactive ways to learn. The faculty has tried their best possible ways to make the students learn. The different means of teaching (PPTS, VIDEOS, GUEST LECTURES etc.) have proved to be helpful.
- The staff and admin can be made more accessible in matters related to scholarships/freeships.
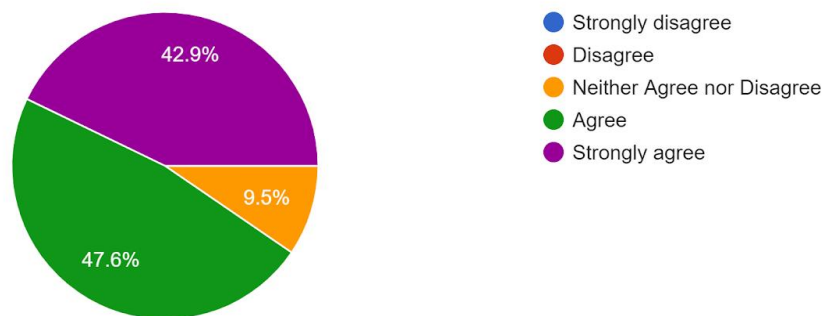

- Overall the faculty members are really supportive and understanding. Whatever can be done in an online mode of studying they have done that and made their class interactive and informative.
- I feel that the pandemic has been a major shift for not just us as students but also for our professors. I strongly feel that they have done all they could to make sure that our learning process isn't hampered. I would especially like to say that all my professors were very kind and understanding, they were extremely accessible. I felt free to call them, text them or simply drop a mail any time. They also guided me about the course I should choose for my higher studies and I am extremely satisfied and grateful.
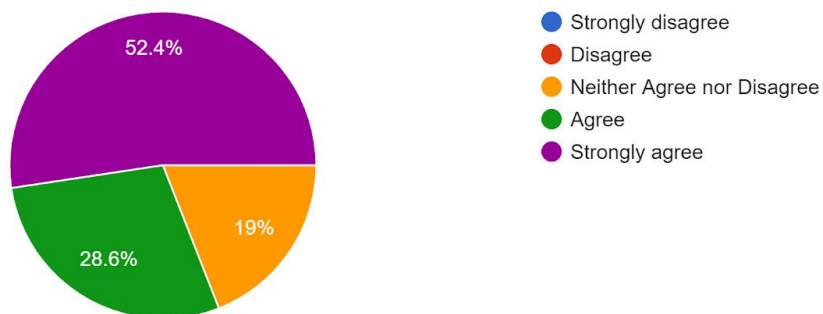

The detailed outcome of the form is mentioned below –

a) Faculty members are regular and punctual in taking online classes.
