80 responses

Adequate opportunities for research are provided in the department.

80 responses

Teachers are accessible and available for support.

80 responses

College provides online access to library

80 responses

Grievances to college can be reported even in online mode

80 responses

College staff is helpful and accessible

80 responses

College provides opportunities and platform for engagement with social issues

80 responses

Student societies are participative, engaging and conduct events on a regular basis

80 responses

Suggestions, if any (with a word limit of 250 words) 4 responses

Colleges should reopen... It has become difficult many students to manage classes from their homes specially the ones who are from rural areas.

- Kindly provide us access to college library. It's been 1.5 years since we got admission, but still we keep getting one or the other reason. - Would be great if college provides us with some sort of valid id by which we can show as proof to any third party when required. Other DU colleges provide it's students with an official student mail id as well as ID cards which were sent by courier to students house. - Please see if something can be done to accommodate more students in the college hostels. (Consider expanding the infrastructure)

Batch of 2021 should get a chance to experience offline farewell

SELF REFLECTIVE FORM

I am regular and punctual in attending my online classes.

80 responses

In case, you are not regular, kindly provide the reason in up to 100 words: 11 responses

Classes are not interactive and are partial towards the brighter students. Teachers don't make classes interesting enough to attend. Teachers name and pin point students for answering out of the blue inducing anxiety and students often leave classes to avoid the anxiety.

I am preparing for competitive exams so I have to attend some classes for the same simultaneously.

I don't like online classes. Please reopen college.

There is not enough motivation to attend the classes. At the end we know attendance isn't being counted and we can study on our own for the tests/ assignments. Moreover some people keep on speaking in the class all the time even when it's not required which gets really irritating and you just wanna exit the class after that. Teachers might feel that those 4-5 people are adding value to the class but others might just get annoyed.

Because I am preparing for CA

-

It's hard to concentrate, and due to lack of enthusiasm from students side it's non-participative. It doesn't feel like a class and it's hard to learn or grasp anything.

Sometimes there used to be power cuts and data issues, other time parents needed my help at home during classes.

At times long hours of classes drain energy and exhaust me. Plus the breaks are really small, there's no time to have lunch or rest for a while in between

Self study works better for me.

Caught up with internship work

I participate in class discussions and help my teacher in making the classes interesting

80 responses

In case, you don't participate much, kindly provide the reason in up to 100 words:4 responses

-

Barely any interaction brought up in class, even by the teachers. Very intimidating for introverts or shy kids to participate in class. Too many kids in a class that the teachers only respond to the brighter always interactive kids.

Same as above.

I approach my teachers for support in case I am facing difficulties or doubts in academics or socio-emotional challenges

80 responses

In case, you don't approach, kindly provide the reason in up to 100 words: 4 responses

Very difficult and intimidating for students like me who are introverted to reach out when they aren't too good at texting and making friends in the college. Usually whenever I face any difficulty or doubts in academics or any other problem, I try to solve it myself or with the help of my friends or family. I approach my teachers only if I am unable to overcome the issue even after speaking with family or friends.

-

We get enough tutes for doubt clearing so academically its sorted but on a personal note, it hard to connect with people online. Everyone say talk when you wish to but i do not think anyone's willing to listen. We often communicate our issue but as our teachers are also bound by university's decisions, there is no real use of sharing our issues, as no solution can be reached.

e) I ask for feedback on my performance in assignments

80 responses

I complete and submit my online assignments as per schedule.

80 responses

In case, you don't ask, kindly provide the reason in up to 100 words:4 responses

Not required. Assignments are usually straightforward

-

I feel like I won't be given one, plus it feels odd asking for one.

Most of our internal assessments were test based . So i knew where i went wrong in my answers and i didn't ask for feedback

I participate in association activities (e.g., online talks, seminars, academic meets) regularly

80 responses

I make adequate use of opportunities for research in the department.

80 responses

In case, you don't participate, kindly provide the reason in up to 100 words: 0 responses
No responses yet for this question.

In case, you don't, kindly provide the reason in up to 100 words: 1 response

-

I make adequate use of opportunities for research in the department.

80 responses

In case, you don't, kindly provide the reason in up to 100 words:3 responses

-

I am planning to see opportunities in research from my 4th semester
Not available

I make use of my college library services

80 responses

In case, you don't, kindly provide the reason in up to 100 words: 16 responses

Because we are not aware of the procedure to use it.

I don't have access to it

I am unaware as how to access the same .

Dont even have the login credentials

Because we do not have the access to it. Waiting to get access since 1.5 years!

there is no access.

It is not accessible

I am not aware of the schedule how can I get access to it

Online college library services is not at all provided to my batch of commerce department. We dont have any access or user IDs to such library.

-

The services aren't accessible to us. Despite a lot of reminders, there is some communication gap that our request of even NList is not yet heard. And for offline college library, we are not allowed entry in college and not permitted to use college library despite numerous request. I don't have the library card.

College hasnt provided nlist facility yet. I do not stay in delhi and i haven't accessed the physical library.

We are not given access to college library

Still not provided with the access

No access to college Library has been provided so far

I make use of the platforms college provides for engagement with social issues (e.g., NSS, VAPP, WDC, REACH, Dhyana etc.)

80 responses

In case, you don't, kindly provide the reason in up to 100 words:2 responses

The NSS isn't active, hardly two sessions are conducted in a month or two

These platforms are good but everything is too much restricted to social media world and virtual seminars which I can't connect to. We are missing on practical aspect for too long now. It's hard to convince ourselves to give them priority.

Additional comments, if any (under the word limit of 250 words) 2 responses

-

I don't know why this form was to be filled. But if it was to understand what's happening in our online college, I am grateful someone cared. But honestly it doesn't matter much now, we have already missed our half college life in the anticipation of a wave that never came. Teachers are real nice but its hard to connect. I can't make that connections with our teachers we had back in schools.
