DIL SE: BREAKING THE TECH DIVIDE

With the world in the grips of the Corona Pandemic, the economic divide has widened even further. Studying from home became a dream for many. 'Dil Se' was an initiative launched by the ELSA Executive Committee, to provide digital support to students when their homes became the classrooms. The Dil Se Initiative also supplements the college's need-based scholarship Program.

DI Committee Minutes

A series of meetings were held to discuss and finalize the modalities of facilitating laptops (or any other devices) and data packs to the 2nd and 3rd year students. **The first meeting with DI group of Alumna was held on 20th Nov 2020** which was also attended by finance committee members. The minutes of this meeting are attached separately. Following are the decisions arrived in the series of meetings held between 20th and 22nd November 2020

1 It was decided not to have endowment fund in the name of college for giving laptops as advised by finance committee due to many logistics like transfer of money from abroad, delay in the process to name a few. Instead, it was decided that DI committee of the college will be identifying the students needing the devices and the list will be given to the **DI group of alumnae (Contact person-Ms Suki Iyer)** and they will work out the logistics of delivering the devices to the students.

2 The committee decided to use both subjective (need of the students and family circumstances due to the pandemic) as well as objective criteria (income level) to identify the students who will be needing devices. The same was communicated to the Teacher in charges of all 15 departments and were asked to interact with the students and assess.

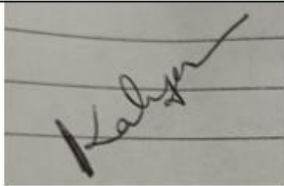

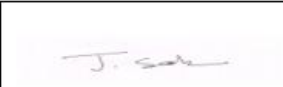

3 Since, the devices are needed urgently to the forth coming practical exams which are starting from 4th Dec 2020, it was decided to prioritize the students from Practical's based courses like Mathematics, Statistics, Commerce, Psychology.

4 As these courses need software's to run, only laptops can suit their purpose while it can be deliberated to provide tablets or laptops for other students depending on the finances available.
