Excellent Programme and faculty

I think syllabus could be structured in a better way it is always restricted to a certain framework.

The amount of time that I had spent in the sociology course had been fun and enlightening.

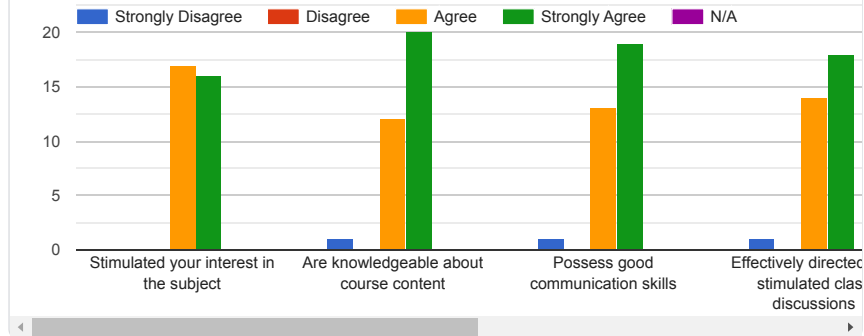

The department as a whole is a safe space for the students to grow as budding sociologists.

College resources are good but can improve for the betterment of the students.

If you were to list three chief outcomes of studying Sociology during the last three years what would they be?

9 responses

Research oriented, writing skills, indepth analysis, communication skills

- 1) It enabled me to engage with things around me differently. Always pushed me to look beyond the face value.
- 2) Helped me to be analytical and critical about things.
- 3) In the learning process, there is always the scope of unlearning and relearning things.

- 1) Able to identify and apply sociological concepts in day to day social life.
- 2) Understood that social structures create different forms of inequality.
- 3) Able to interpret and analyze both quantitative and qualitative data.

- 1) better understanding of the society
- 2) emphatic to changes
- 3) better understanding of socio-economic aspect of society

Enhanced by ability to see things from various lense

Able to critique everything

The ability to see beyond the world I grew up in, the understanding that there is no one true reality and that being part of a whole (instead of being a 'unique' individual) isn't necessarily a bad thing.

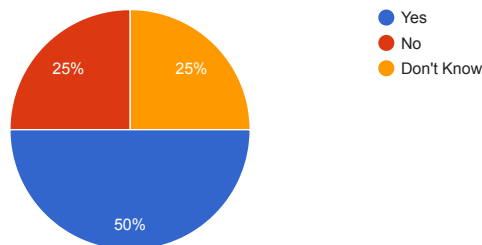

- 1. The ability to read dense texts and concepts prescribed in the readings improved my reading comprehension
- 2. Sensitivity to and appreciation of social contexts
- 3. More structured writing

The sociology faculty of LSR was the best gift i recieved in 2019-22. almost All the professors were caring, understanding, extremely knowledgeable and experienced. Thank you for making it easier to graduate during a pandemic. ❤️

The college as a whole really guides the students to become better versions of themselves and it is a safe space to voice out opinions.

extremely knowledgeable, made me fall in love with sociology. ❤️

I really liked the way sir was approachable and accessible to everyone.

I really appreciate sir's effort to have an one on one interaction with every student and have tried to know every student through and through beyond the doubts and course related discussions.

Excellent

Probably the most insightful person I have ever met.

Apart from the syllabus, RK sir also discusses current issues/happenings from the sociological lens in the class. This has ensured that the class not only knows the theories but also to apply them in the current scenarios which also makes his class a way more interesting.

His understanding of the discipline is way beyond academics and he cares so much for his students.

Enjoyed lectures as they added to my intellect and always gave me a new perspective.

Faculty has always been open to students for doubts and discussions whether it be with the course or general and it had been a great learning experience with them.

My experience in the college was intellectually stimulating. It gave me the foundation to comprehend the society in a broader perspective and to look beyond what is at the face value, rather than going for superficial analysis. I am truly grateful for the education I received in my undergraduation.
